Hello - This section is optional and is just meant to provide a dozen or so screencasts on basic Excel usage. Even if you have never used Excel before, you'll be up to speed after watching (and practicing the content within) these screencasts). If you're already well versed with Excel, consider these optional or use them as reference material throughout the course.

Excel fundamentals: https://vimeo.com/87688454

Basic case study in Excel: https://vimeo.com/87682458

Excel syntax: https://vimeo.com/87690865

Excel's built-in functions: https://vimeo.com/87693101

Basic scatterplot in Excel: https://vimeo.com/199753766

Goal seek in Excel (although we'll be re-learning this): https://vimeo.com/88296894

Lookup functions in Excel: https://vimeo.com/87812779

One-way data table in Excel: https://vimeo.com/87698240

Two-way data table in Excel: https://vimeo.com/96874292

Solver tool in Excel (although we'll be re-learning this): https://vimeo.com/88483686
